

AI Assistant Creation for Data & Analytic Leaders

We specialize in the rapid deployment of chat-centric AI assistants that focus on developing a high-growth data & analytics enterprise culture.

Knowledge at Everyone's Fingertips

Enterprise Specific Content

AI Data Assistants combine the best of large language models (LLM) with enterprise-specific content that is safe and secure.

Leverage Existing Tool Investments

AI Data Assistants complement and unlock knowledge trapped in data catalogs, documents, support sites, and more.

Rapid Time to Value

AI Data Assistants deploy in weeks, are immediately useful, and are easy to expand incrementally.

The 'killer app' for driving data culture

Prentice Gate Approach

Predefined Engagements

- Bronze, Silver, and Gold engagements that find all timeframes and budgets
- Prescriptive, low-resource impact

RAG Pack Accelerators

- Prebuilt Retrieval Augmented Generation (RAG) integrations for data catalogs
- Predefined best-practice content

Microsoft AI Stack Focus

- Safety and security of enterprise IP
- Mature RAG architecture pattern and supporting services.
- Automated stack deployment
- Subscription and Fabric consumption cost benefits

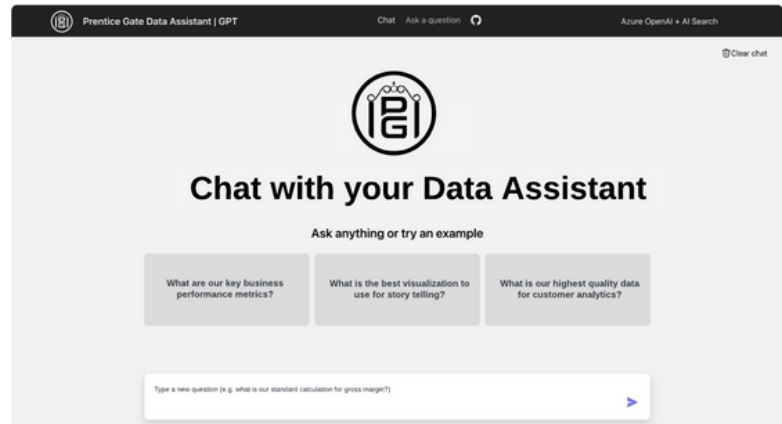

Future Proof Architecture

- Extension to Microsoft core office applications and automation.
- Content extension using RAG pattern.
- No specific LLM vendor lock-in

AI DATA ASSISTANTS FOR ALATION

Achieve viral adoption and engagement with zero learning curve

We rapidly create and deploy chatbot assistants using Alation content and prebuilt integration!

What Do We Do?

We help data leaders put the power of gen AI LLMs and enterprise-specific knowledge at everyone's fingertips to grow their data culture and career.

AI assistants are the modern, high-productivity approach for sharing, learning, and using enterprise data assets. Even better, we have pre-integrated Alation so its content can be rapidly made chatbot-ready.

How Do We Do It?

We offer three simple Bronze, Silver, and Gold engagement packages that make it easy and cost-effective to get started. Each package includes a prescriptive, step-by-step approach that our consultants use to switch on a private and secure AI stack, connect it to Alation, and start letting users interact.

Our Benefits

Quick Time to Value

We count time to value in days and weeks. Our philosophy is to listen carefully to user feedback then iterate and adjust quickly.

Viral Enterprise Adoption

AI Data Assistants are the 'killer app'. Zero learning curve and packed with all the knowledge the enterprise needs.

IP Security & Safety

We implement using the Microsoft AI stack for one simple reason. They are the most mature and committ, in writing to IP security.

4 KEYS TO REVOLUTIONIZING ENTERPRISE DATA WITH AI DATA ASSISTANTS

Generative AI is creating new opportunities for all disciplines and enterprise data is no exception. Data & analytic leaders have a unique opportunity to unlock knowledge and drive their data culture, but they must focus on the right long-term objectives.

Think Multi-Dimensionally

AI Data Assistants must contain broad and deep knowledge that helps everyone from the inexperienced to deeply experienced.

01

Focus on Spanning Content Silos

AI Data Assistants are not integration platforms, but they naturally support knowledge from organizational silos without the cost of integration.

02

Evolve from Passive to Active Capabilities

AI Data Assistants follow a maturity curve from being informative to allowing users to take action and in some cases, autonomously acting on the users behalf.

03

Data Expertise is Vital

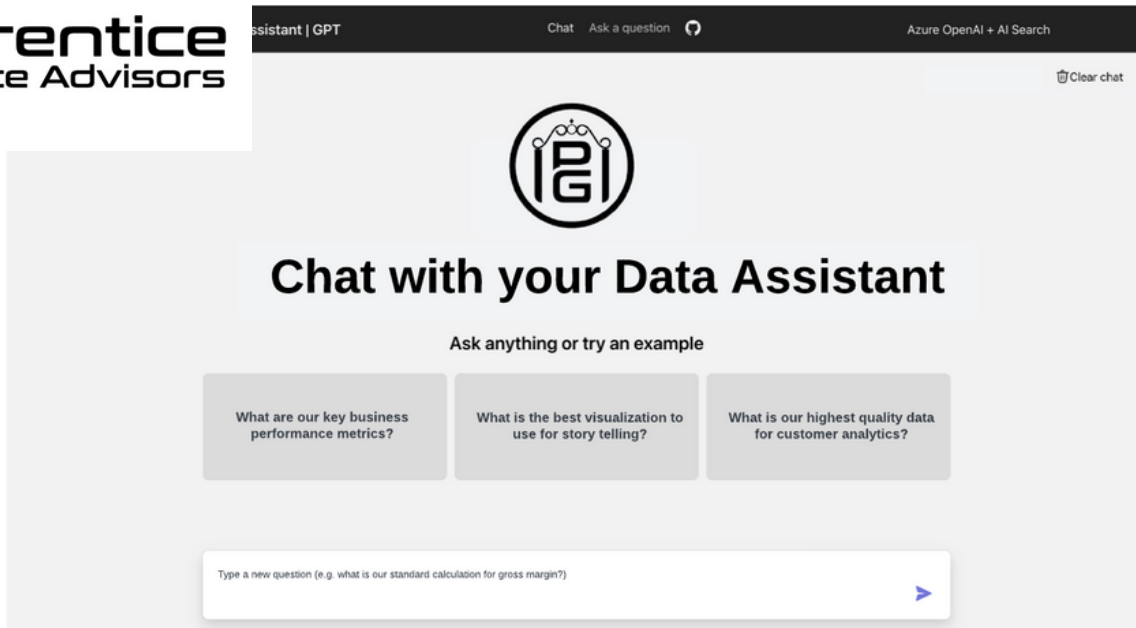

AI technical mechanisms are important and interesting, but success depends on deep and rare data & analytic domain knowledge
