SERVICE

# Fractional Advisory Services

## Challenge

Most Alation customers could save time and de-risk their catalog implementations with some expert guidance and coaching. The challenge is they can't defend hiring a full-time FTE or afford steep consulting fees.

## Solution

Prentice Gate's solution is fractional services that allow customers to tap into their expertise for a certain number of hours per week or days per month.

No long-term contracts or commitments, just help when needed on high-priority topics.

## How does it work?

The process is simple. Customers use the Prentice Gate site to select and pay for a retainer. It can be a number of hours or days per week or month.

Then they use the online Prentice Gate booking tool to schedule meetings.

If a customer wants to use some of the time for work outside a meeting, they will discuss it and the agreed time will be booked.

## Popular Topics

Prentice Gate can help with everything from strategy and planning to API integrations.

Some popular topics are:

- Adoption strategy and execution
- Catalog design and customization
- Roles and responsibilities
- Data governance implementation
- Data quality approach
- Data mesh implementation
- Data product strategy
- Policy bot automation

## Benefits

- Accelerate the team's learning curve
- Optimize catalog usage and adoption
- De-risk Alation catalog deployment
- Leverage experience & best-practices
- Eliminate rework

## About Prentice Gate

Prentice Gate's Founder & Principal is the former Alation Field CTO who authored the 400+ page Alation Book of Knowledge, authored the Right Start implementation approach, created the Alation Data Catalog Value Index (DCVI), and created the Alation policy bot design pattern.
